Data Base Section
U.S. Fish and Wildlife Service
1025 Pennock Place
Fort Collins, Colorado 80524

Fisheries Review is intended to furnish fishery biologists with abstracts of current literature in sport, fishery research, and management.

One volume, consisting of four numbers, is issued each year. Each number contains separate Author, Geographic, Taxonomic, and Subject indexes, and a list of publications screened. Authors who publish in journals not screened for *Fisheries Review*, and who would like their publications included, should submit abstracts to the Editor.

The U.S. Fish and Wildlife Service assumes no responsibility for the accuracy of material from outside sources, and can only supply copies of articles written and published by the U.S. Fish and Wildlife Service.

Fisheries Review

CONTENTS

AQUATIC PLANTS AND THEIR CONTROL..... 1

CULTURE AND PROPAGATION

General Fish Culture..... 1
Trout and Salmon Culture..... 6
Warmwater Culture..... 9
Mariculture..... 13
Feeds, Feeding, and Nutrition..... 16
Aquariums..... 20
Miscellaneous Culture Techniques and Equipment..... 21

LIMNOLOGY AND OCEANOGRAPHY

General..... 22
Physical..... 22
Chemical..... 23
Benthos..... 23
Plankton..... 24
Primary Production..... 25

MORPHOLOGY, PHYSIOLOGY, GENETICS AND BEHAVIOR

Morphology..... 25
Physiology..... 34
Genetics, Variation Studies, and Hybridization..... 68
Behavior..... 75

NATURAL HISTORY

Life History - General Works..... 84
Population Studies, Production, Recruitment, etc..... 90
Spawning Habits and Movements, Fecundity, etc..... 93
Movements, Seasonal and Depth Distribution, etc..... 95
Foods/Feeding..... 97
Age and Growth..... 102
Geographical Distribution, Fish Surveys, etc..... 104
Abundance, Factors of; Survival and Mortality..... 109
Identification, Keys, Classification..... 110

PARASITES AND DISEASES

General..... 114
Bacterial..... 119
Fungal..... 123

Protozoan..... 124
Viral..... 125
Other..... 127

POLLUTION AND TOXICOLOGY

Pollution..... 135
Fish Kills..... 145
Toxicology; Bioassays..... 146

RESEARCH AND MANAGEMENT

General..... 158
Administration and Planning..... 161
Habitat Alterations..... 162
Harvest, Creel Census, etc..... 165
Marking and Tagging..... 166
Stocking and Introductions..... 167
Fishing Gear and Techniques..... 169
Fishways, Fish Passage Through Dams, etc..... 171
Mathematics, Statistical Methods, and Modeling..... 172
Lake Management and Research..... 179
River and Stream Management and Research..... 185
Farm Pond and Small Impoundment Management and Research..... 199
Large Impoundment Management and Research..... 199
Estuary Management and Research..... 200
Marine Management and Research..... 202
Utilization of Fishery Products..... 213
Miscellaneous Techniques and Equipment..... 214
Reviews, Bibliographies, etc. 217
Watershed Management..... 218
Miscellaneous..... 218

AUTHOR INDEX (Blue)..... 221
GEOGRAPHIC INDEX (White)..... 273
SYSTEMATIC INDEX (Blue)..... 285

As the Nation's principal conservation agency, the Department of the Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering the wisest use of our land and water resources, protecting our fish and wildlife, preserving the environmental and cultural values of our national parks and historical places, and providing for the enjoyment of life through outdoor recreation. The Department assesses our energy and mineral resources and works to assure that their development is in the best interests of all our people. The Department also has a major responsibility for American Indian reservation communities and for people who live in island territories under U.S. administration.
